

# Step-by-Step Natural Lip Gloss

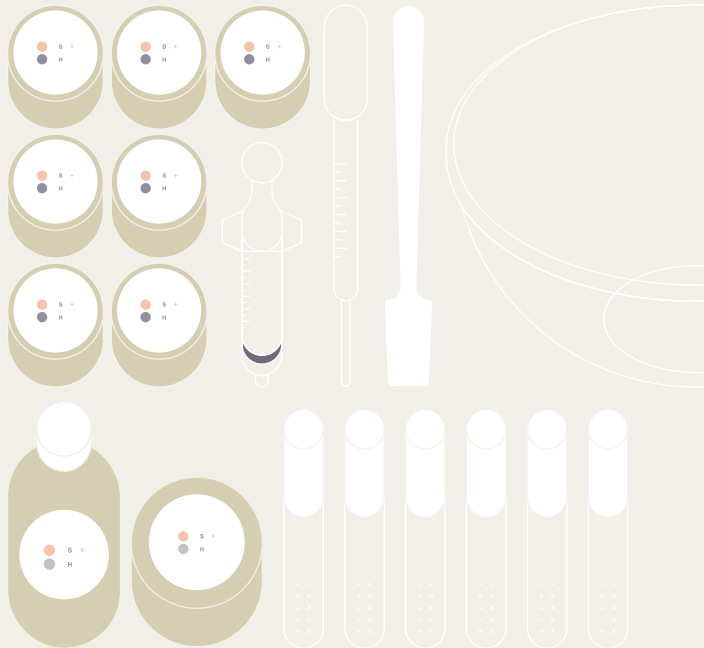

Based on jojoba gel and oil, this lip gloss brings a beautiful shine to your lips and with the addition of mica you can create a range of glorious colours, from cherry red to plum blossom.

Application is easy - just gloss and go.

## YOU WILL NEED

---

- 1 Silk + Honey Kit
- 1 Small mixing bowl
- 1 Measuring spoon
- 1 Surgical spirit or disinfectant.

## STEP ONE

---

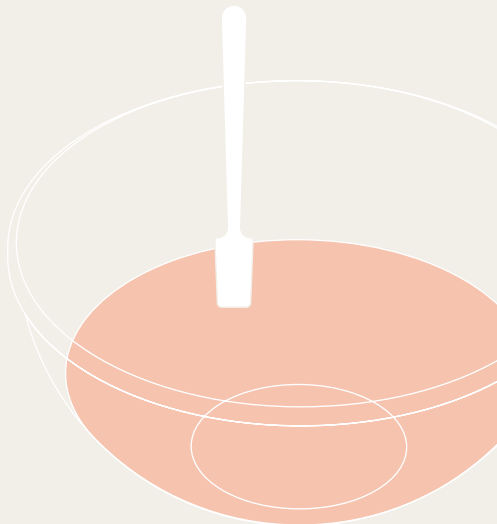

Add the ingredients listed for PHASE **A** to your mixing bowl and stir well to make a smooth mixture.

## STEP TWO

---

Add the PHASE **B**  
color ingredients and  
stir well to develop the  
color.

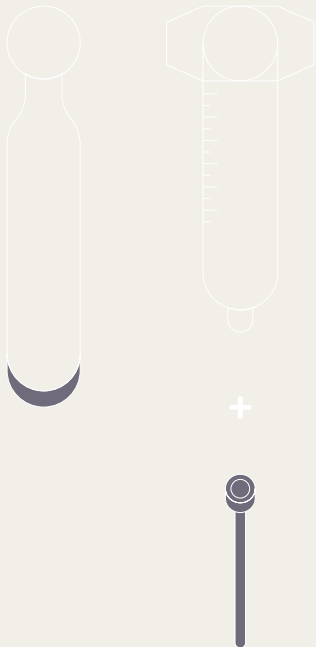

### STEP THREE

---

Remove the plunger from the syringe.

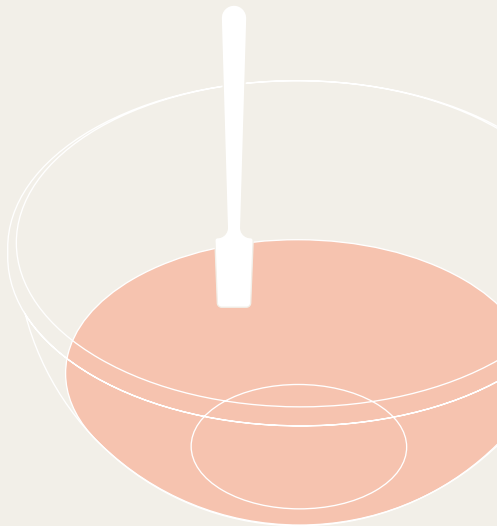

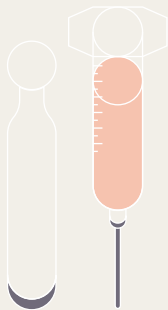

Attach the feeding needle to the syringe.

#### STEP FOUR

---

Use the spatula to fill  
the syringe tube with  
lip gloss.

## STEP FIVE

---

Replace the plunger into the syringe.

Insert the tip of the syringe with the feeding needle attachment into the lip gloss container, then press the plunger to transfer the gloss to the container.

Do not overfill the lip gloss container.
